

Who are we?

SAELG - Swedish Association for Economical Liberation in The Gambia, is a politically independent and religiously unbound association in Sweden.

The purpose of the association is to cooperate with women in The Gambia with the aim that they should be able to participate in the construction of the new Gambia. Our main methods are popular education and cooperatives.

We are a small association with a great commitment where several of us have had the privilege of getting to know people in The Gambia and to follow their work for a democratic social development. This has united us in an ambition to be a force for the development of democracy in The Gambia.

How can we best support the women?

With popular education as a tool, we want to support women in The Gambia to organize and fight for increased gender equality.

The association received funding from Forum Syd, now ForumCiv, for a feasibility study that was carried out during the winter of 2018 to April 2019. In January 2021, the association received funding to carry out a one-year project - Upper Fulladou Women for Change - together with our partner in Gambia, Sololo Tabokoto Kankiling Kafoo in Bansang. In January 2023, ForumCiv granted us funding for a further three-year project.

The goal is to use study circles as a method to create conditions for women to be able to claim their right to participate in the building of society, increase their representation at different levels in society and work to change restrictive laws, rules and traditions. After completed projects, our partner has made great progress and entered into partnerships with 17 other women's associations in the district.

You can contribute directly.

No amount is too small.

Bankgiro: 5074-3871

Swish: 1230987404 – QR code for swish see last page.
